STATEMENT OF MANAGEMENT'S RESPONSIBILITIES FOR THE PREPARATION AND APPROVAL OF THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

Management is responsible for the preparation of the interim condensed consolidated financial statements that present fairly the financial position of PJSC ROSBANK and its subsidiaries (the "Group") as at 30 September 2017, and the results of its operations for 9 months then ended, cash flows and changes in equity for 9 months then ended, in compliance with International Accounting Standard 34, *Interim Financial Reporting* ("IAS 34").

In preparing the interim condensed consolidated financial statements, management is responsible for:

- Properly selecting and applying accounting policies;
- Presenting information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Providing additional disclosures when compliance with the specific requirements in IAS 34 are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Group's consolidated financial position and financial performance;
- Making an assessment of the Group's ability to continue as a going concern.

Management is also responsible for:

- Designing, implementing and maintaining an effective and sound system of internal controls, throughout the Group;
- Maintaining adequate accounting records that are sufficient to show and explain the Group's transactions and disclose with reasonable accuracy at any time the consolidated financial position of the Group, and which enable them to ensure that the condensed interim consolidated financial statements of the Group comply with IAS 34;
- Maintaining statutory accounting records in compliance with the Russian Federation ("RF") legislation and accounting standards;
- Taking such steps as are reasonably available to them to safeguard the assets of the Group; and
- Preventing and detecting fraud and other irregularities.

The interim condensed consolidated financial statements of the Group for 9 months ended 30 September 2017 were authorized for issue on 3 November 2017 by the Management Board of PJSC ROSBANK.

On behalf of the Board:

Chairman of the Management Board

3 November 2017 Moscow

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

1. Organization

ROSBANK (initially named "Nezavisimost") is a joint stock bank which was incorporated in the Russian Federation in 1993. Over the subsequent five years, ROSBANK customers were mainly comprised of medium-sized trade, finance and technology companies, for which it conducted a variety of activities, including corporate lending, settlement, government bond trading, foreign exchange and money market transactions. In 1998 ROSBANK was acquired by the Interros Group with the initial purpose of providing banking services to Interros Group companies. In 2000 ROSBANK acquired Uneximbank which was merged into ROSBANK and ceased to exist as a legal entity. In 2002 the businesses of ROSBANK and Commercial Bank "MFK Bank", specializing in investment banking, were consolidated. In 2003 the Interros Group acquired OVK group – one of Russia's largest retail banking institutions. The integration of OVK with ROSBANK has transformed ROSBANK into a financial institution capable of offering universal services.

Societe Generale became the owner of 20% minus 1 share of Rosbank in 2006. In February 2008 Societe Generale became the owner of Rosbank controlling stock interest by exercising the option for acquisition of 30% stocks. In March 2008 Societe Generale offered to buy the stakes of minority shareholders at 194.09 roubles per share. Having performed the buy-out Societe Generale raised its interest in Rosbank to 57.57%. On 23 March 2009 ROSBANK issued 26,665,928 shares by way of public subscription. The issue was bought by Societe Generale and PHARANCO HOLDINGS CO. LIMITED in the proportion 60.6786% and 39.3214%, respectively. On 27 May 2009 Societe Generale increased its share in Rosbank by 7% after the purchase of this share from PHARANCO HOLDINGS CO. LIMITED.

In February 2010, Societe Generale with the consent of other shareholders of Rosbank Group took the decision to reorganize the legal structure of its Russian subsidiaries in order to build a major financial group.

The first step was achieved in January 2011 with the acquisition of 100% of the share capital of Rusfinance and Delta Credit. The two companies kept acting as separate entities, Rusfinance being mainly dedicated to consumer credit and Delta Credit to mortgages.

The second step was achieved in July 2011 with the merger of the two universal banks ROSBANK and BSGV into a single and unified company ultimately operating under a single brand. Benefiting from their differentiated positioning on both corporate and retail segments, the new structure aims at improving its financial performance by increasing revenues through cross-selling strategy and developing synergies in order to reduce operational costs.

During 2013, Societe Generale further consolidated its positions in Russian market by acquiring in December 2013 an additional 10% stake in ROSBANK equity from VTB Group, increasing it up to 92.4%. As part of the agreement ROSBANK sold to VTB Group certain Russian assets: shares listed on Moscow Exchange as well as some loans and real-estate assets.

In April 2015 Societe Generale acquired further 7% of ROSBANK's share capital from Interros group, raising its stake to 99.4%, in line with its strategy of building up the Group's stake in ROSBANK.

ROSBANK is regulated by the Central Bank of the Russian Federation (the "CBR") and conducts its business under license number 2272. ROSBANK is engaged in a full range of banking activities, including commercial and investment banking and custodial services.

The registered office of ROSBANK is located at 34, Masha Poryvaeva Street, Moscow, 107078, Russian Federation.

As of 30 September 2017 and 31 December 2016 ROSBANK had 8 branches operating in the Russian Federation.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

ROSBANK ("the Bank") is the parent company of a banking group (the "Group") which consists of the following material enterprises as of 30 September 2017, 31 December 2016 and 30 September 2016:

Name	Country of incorporation		Group's ownership interest / voting rights, %		Type of operations
		30 September 2017	31 December 2016	30 September 2016	
Delta Credit Bank JSC (previous name – Delta Credit Bank CJSC)	Russia	100/100	100/100	100/100	Banking
Rusfinance Bank LLC	Russia	100/100	100/100	100/100	Banking
Rusfinance LLC	Russia	100/100	100/100	100/100	Commerce
RB Factoring LLC	Russia	100/100	100/100	100/100	Factoring
Rosbank (Switzerland) SA	Switzerland	100/100	100/100	100/100	In liquidation
RB LEASING LLC	Russia	100/100	100/100	100/100	Leasing
ORS JSC (previous name – ORS OJSC)	Russia	100/100	100/100	100/100	Processing
RB Specialized Depositary LLC (previous name – RB Securities LLC)	Russia	100/100	100/100	100/100	Depositary services
Valmont LLC	Russia	Liquidated	100/100	100/100	Asset holding company
RB Service LLC (previous name – RBS Avto LLC)	Russia	100/100	100/100	100/100	Service company
Telsikom CJSC	Russia	100/100	100/100	100/100	Telecommunication services

On 14 July 2010 the Group took decision to close its foreign subsidiary in Switzerland – Rosbank (Switzerland) SA. In May 2017 the licence for banking activities was withdrawn. The Group does not anticipate any substantial impact on its financial results nor its financial position as a result of the aforementioned liquidation.

In June 2017 Valmont LLC was liquidated.

As of 30 September 2017 and 31 December 2016, the controlling shareholder of ROSBANK is Societe Generale S.A.with share more than 99%.

2. Going concern

These interim condensed consolidated financial statements have been prepared on the going concern basis. The Group has no intention or need to reduce substantially its business operations.

The management and shareholders have the intention to further develop the business of the Group in the Russian Federation both in corporate and retail segments. Management believes that the going concern assumption is appropriate for the Group due to its sufficient capital adequacy ratio and based on historical experience that short-term obligations will be refinanced in the normal course of business.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

3. Basis of presentation

Statement of compliance

These interim condensed consolidated financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting".

The interim condensed consolidated financial statements are unaudited and do not include all the information and disclosures required in the annual financial statements. Additionally, the Group has provided disclosures where significant events have occurred subsequent to the issuance of the Group's annual consolidated financial statements for 2016 prepared in accordance with IFRS. Management believes that the disclosures in these interim condensed consolidated financial statements are adequate to make the information presented not misleading if these financial statements are read in conjunction with the Group's annual consolidated financial statements for 2016 prepared in accordance with IFRS. In the opinion of management, these financial statements reflect all adjustments necessary to present fairly the Group's financial position, results of operations, statements of changes in equity and cash flows for the interim reporting periods.

Since the results of the Group's operations closely relate to and depend on changing market conditions, the results of the Group's operations for the interim period are not necessarily indicative of the results for the full year.

Other basis of presentation criteria

These interim condensed consolidated financial statements have been prepared assuming that the Group is a going concern and will continue operation for the foreseeable future.

These interim condensed consolidated financial statements are presented in millions of Russian Roubles ("mRUB"), unless otherwise indicated.

These interim condensed consolidated financial statements have been prepared under the historical cost basis, except for certain financial instruments that are measured at fair values, and certain land and buildings that are measured at revalued amounts according to International Accounting Standard 16 *Property, Plant and Equipment* ("IAS 16"). Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these interim condensed consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

The Bank and its consolidated companies, registered in the Russian Federation, maintain their accounting records in accordance with Russian Accounting Standards (RAS), foreign consolidated companies of the Group maintain their accounting records in accordance with the law of the countries, in which they operate. These interim condensed consolidated financial statements have been prepared from the statutory accounting records and have been adjusted to conform to IFRS.

Functional currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The functional currency of the parent of the Group is the Russian rouble (RUB). The presentation currency of the interim condensed consolidated financial statements of the Group is the RUB. All values are rounded to the nearest million RUB, except when otherwise indicated.

Offset of financial assets and liabilities

Financial assets and liabilities are offset and the net amount reported in the interim condensed consolidated statement of financial position only when there is a currently legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the asset and settle the liability simultaneously. Income and expense is not offset in the interim condensed consolidated statement of profit or loss unless required or permitted by any accounting standard or interpretation permitted by any IFRS, and as specifically disclosed in the accounting policies of the Group.

4. Significant accounting policies

The same accounting policies, presentation and methods of computation have been followed in these interim condensed consolidated financial statements as were applied in the preparation of the Group's financial statements for the year ended 31 December 2016, except for the accounting policies and impact of the adoption of the Standards and Interpretations described below.

Rates of exchange and commodity prices

The exchange rates and commodity prices at period-end used by the Group in the preparation of the interim condensed consolidated financial statements are as follows:

	30 September 2017	31 December 2016
RUB/1 US Dollar	58.4255	60.6569
RUB/1 Euro	68.6441	63.8111

Critical accounting judgements and key sources of estimation uncertainty

In preparing these interim condensed consolidated financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were consistent with those that applied to the Group's annual consolidated financial statements for 2016 prepared in accordance with IFRS.

The Group adopted new Standards effective as of 1 January 2017 as described below. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not vet effective.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

5. Application of new and revised International Financial Reporting Standards (IFRS)

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2016, except for the adoption of new standards effective as of 1 January 2017. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective. The nature and the impact of each amendment is described below:

Amendments to IAS 7 Statement of Cash Flows: Disclosure Initiative

The amendments require entities to provide disclosures about changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes (such as foreign exchange gains or losses). On initial application of the amendment, entities are not required to provide comparative information for preceding periods. The Group is not required to provide additional disclosures in its interim condensed consolidated financial statements, but will disclose additional information in its annual consolidated financial statements for the year ended 31 December 2017.

Amendments to IAS 12 Income Taxes: Recognition of Deferred Tax Assets for Unrecognised Losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may make deductions on the reversal of that deductible temporary difference. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Entities are required to apply the amendments retrospectively. However, on initial application of the amendments, the hange in the opening equity of the earliest comparative period may be recognised in opening retained earnings (or in another component of equity, as appropriate), without allocating the change between opening retained earnings and other components of equity. Entities applying this relief must disclose that fact.

The Group applied the amendments retrospectively. However, their application has no effect on the Group's financial position and performance as the Group has no deductible temporary differences or assets that are in the scope of the amendments.

Annual Improvements Cycle - 2014-2016

Amendments to IFRS 12 Disclosure of Interests in Other Entities: Clarification of the scope of disclosure requirements in IFRS 12

The amendments clarify that the disclosure requirements in IFRS 12 apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale. These amendments do not have any impact on the Group.

The above mentioned amended standards effective for the Group from 1 January 2017 did not have a material impact on the accounting policies, financial position or performance of the Group.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

6. Cash and balances with the Central Bank of the Russian Federation

	30 September 2017 mRUB (unaudited)	31 December 2016 mRUB

Cash Flow Hedge and Hedge of Net Investment in Foreign Entity (NIFE)

As of 30 September 2017 and 31 December 2016 the Group's cash flow hedge was related to its exposure to the variability in the anticipated future cash flows on its financial liabilities related to Société Générale Group share-based payment program announced in May 2017 and in April 2016 for the total amount equivalent to 58,362 and 60,185 shares respectively to be paid during 2016-2022 subject to the satisfaction of certain underlying conditions.

The Group measures the fair value of its derivative financial instruments based on quoted prices or valuations derived from observable market prices.

To hedge against the variability in the cash flows on financial liabilities due to the share price risk, as of 30 September 2017 the Group used forward contracts at a fixed price of EUR 44.0984 and EUR 32.9154 per share (as of 31 December 2016 – 32.9154 per share). As such the Group minimizes the effect of changes in market prices for SG shares on its future cash flows.

Another part of the Cash flow hedge is related to the swap (hedging instrument), which enables the Group to protect itself against negative variations in future cash flows on the variable-rate loans to customers due to a fall in interest rates. This part of the Group's cash flow hedge is related to variable-rate loans to customers for the principal as at 31 December 2016 of RUB 393 million.

The Group's hedge of Net Investment in Foreign Entity is related to the variability of the net assets of it's subsidiary (Rosbank (Switzerland) SA) nominated in CHF.

Fair Value Hedge

The Group's fair value hedge is related to its exposure to the variability in changes of fair value of available-for-sale securities for the nominal amount as of 30 September 2017 and 31 December 2016 of RUB 2,500 million and RUB 2,500 million, respectively.

The Group measures the fair value of its derivative financial instruments based on quoted prices or valuations derived from observable market prices.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

Embedded derivatives

The Group issued structural bonds with embedded derivatives included in financial assets at fair value through profit and loss in amount RUB 2,747 million as at 30 September 2017 and in financial liabilities at fair value through profit and loss in amount RUB 269 million as at 31 December 2016, respectively. Simultaneously the Group entered into interest rate swap contracts to compensate future cash flows to be paid on structural bonds issued. The fair value of interest rate swaps included in financial liabilities at fair value through profit and loss amounted to RUB 3,041 million as at 30 September 2017 and in financial liabilities at fair value through profit and loss amounted to RUB 205 million as at 31 December 2016, respectively.

10. Loans to customers

	30 September 2017 mRUB (unaudited)	31 December 2016 mRUB
Loans to legal entities Loans to individuals Net investments in finance lease Account receivable from RF Government on financed loans	251,764 396,802 15,001 4,243	244,399 380,757 13,047 3,344

Net allocations	2,857	10,199	795	3,652
Recoveries of loans written off Write offs not covered by provisions	(177) 32	(99) 1,478	(100) 11	(53) 232
Provision for impairment losses on interest bearing assets	2,712	11,578	706	3,831

Write-offs not covered by provision in the amount of RUB 32 million and RUB 1,478 million for 9 months ended 30 September 2017 and 2016, respectively, represent losses incurred by the Group from refinancing of US dollar denominated mortgage loans to individuals at a decreased interest rate. The difference between the fair value at initial recognition of new loan and the carrying value of the previous loan is recognized as provision for impairment losses on interest bearing assets in the interim condensed consolidated statement of profit or loss.

The movements in allowance for impairment losses on interest-bearing assets were as follows:

	Due from banks	Loans to customers	Total
	mRUB	mRUB	mRUB
31 December 2015	-	63,488	63,488

25. Income tax

The Group measures and records its current income tax payable in its assets and liabilities in accordance with the tax regulations of RF and countries where the Group and its subsidiaries operate, which may differ from IFRS.

The Group is subject to certain permanent tax differences due to the non-tax deductibility of certain expenses and certain income being treated as non-taxable for tax purposes.

Deferred taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for tax purposes. Temporary differences as of 30 September 2017 and 31 December 2016 relate mostly to different methods/timing of income and expense recognition as well as to temporary differences generated by tax - book bases' differences for certain assets.

The tax rate used for the reconciliations below is the corporate tax rate of 20% payable by corporate entities in the RF on taxable profits (as defined) under tax law in that jurisdiction.

Based on semi-annual tax business planning exercise, the Group believes that it will generate sufficient taxable profits to recover the deferred tax assets recognized as of 30 September 2017.

Income tax (credit)/expense for 9 and for 3 months ended 30 September 2017 and 2016 comprise:

	9 months ended 30 September mRUB (unaudited)		3 months ended 30 September mRUB (unaudited)	
	2017	2016	2017	2016

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

27. Commitments and contingencies

In the normal course of business, the Group is a party to financial instruments with off-balance sheet risk in order to meet the needs of its customers. These instruments, involving varying degrees of credit risk, are not reflected in the statement of financial position.

The Group's maximum exposure to credit risk under contingent liabilities and commitments to extend credit, in the event of non-performance by the other party where all counterclaims, collateral or security prove valueless, is represented by the contractual amounts of those instruments.

The Group uses the same credit control and management policies in undertaking off-balance sheet commitments as it does for on-balance operations. Extension of loans to customers within credit line limits is approved by the Group on a case-by-case basis and depends on borrowers' financial performance, debt service and other conditions.

	30 September 2017 mRUB (unaudited)	31 December 2016 mRUB
Litigations and other provisions Provision for losses on letters of credit and guarantees	282 880	387 1,158
Total other provisions	1,162	1,545

As of 30 September 2017 and 31 December 2016, letters of credit and other transactions related to contingent obligations covered by cash on customers' accounts amounted to RUB 2 million and RUB 82 million, respectively and guarantees issued covered by cash amounted to RUB 191 million and RUB 86 million, respectively.

As of 30 September 2017 and 31 December 2016, the nominal or contract amounts were:

	30 September 2017 (anaudited) Nominal amount mRUB	31 December 2016 Nominal amount mRUB
Contingent liabilities and credit commitments		
Guarantees issued and similar commitments Letters of credit and other transaction related contingent	108,355	97,847
obligations	8,199	9,542
Commitments on loans and unused credit lines	69,762	98,534
Total contingent liabilities and credit commitments	186,316	205,923

The Group has commitments to provide funds under credit lines facilities. However, the Group has a right not to exercise such commitments due to certain conditions.

Commitments on lease activities – As of 30 September 2017 and 31 December 2016 the Group has commitments for capital expenditure on finance lease outstanding amounting to RUB 567 million and RUB 193 million, respectively.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

Operating lease commitments – Where the Group is the lessee, the future minimum lease payments under non-cancellable operating leases of buildings and equipment are as follows:

	30 September 2017 mRUB (unaudited)	31 December 2016 mRUB
Not later than 1 year	1,999	2,153
Later than 1 year and not later than 5 years	3,122	3,232
Later than 5 years	2,294	2,517
Total operating lease commitments	7,415	7,902

Legal proceedings – From time to time and in the normal course of business, claims against the Group are received from customers and counterparties. Management is of the opinion that no material unaccrued losses will be incurred.

Taxation – the current provisions of Russian laws and regulations affecting business continue to change rapidly. The implementation of the Russian tax laws and regulations is often unclear or inconsistent. Historically, the system of tax collection in Russia has been relatively ineffective, resulting in the continual changes to the tax legislation, some of which apply retroactively and occur with little notice, as well as in interpretation of the existing laws and regulations by various authorities. Recently, the approach of the Russian tax authorities has become tougher in the interpretation of tax legislation. As a result, previously uncontested approaches to the tax calculations could be challenged in the course of future tax audits.

Starting from 2012, additional obligations were imposed on the companies of the Group by Russian tax legislation concerning preparation of reports and documentation on transfer pricing. The Russian tax authorities could challenge the amount of taxable income or expenses in case of prices in controlled transactions (both domestic and cross-border) are not at arm's length. There is a potential tax risk that tax authorities could accrue additional tax liabilities in case of the Group are not in position to demonstrate the application of market prices in "controlled" transactions. The amount of potential tax risks of the Group's transfer pricing position could not be estimated.

Loan financing is one of the major parts Group's transactions. Management supposes that control procedure applied in the Group with respect to interest rates applied in intragroup loan financing mitigates potential transfer pricing tax risk.

Starting from January 1, 2015, new rules on taxation of controlled foreign companies were introduced into the Russian tax legislation, as well as the concept of tax residency for legal entities and the beneficial ownership concept. These implementations generally lead to increase in the administrative and tax burden on the Russian taxpayers engaged in transactions with foreign companies.

In 2017 the Group did not have foreign subsidiaries, in respect of which the Group could have significant tax liabilities in accordance with the rules on taxation of controlled foreign companies.

Since January 1, 2017, the Russian Tax Code establishes the obligation of the Russian companies to confirm that the recipient of income is a beneficial owner (applicable for types of income with respect to which double tax treaties provides tax benefits). The Groups' management has taken into account these changes in tax legislation and implemented the respective additional procedures to minimise tax risks related to the Russian withholding income tax.

In 2017 the Russian tax law was supplemented by new tax privilege with respect to personal income tax on income received by the Bank's clients in the course of banking cards loyalty campaigns. Introduction of this privilege was important for the Group because banking cards bonus programs and

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

additional discounts for settlements via banking cards is considered as competitive advantage on the Russian market.

Also Starting from January 1, 2017 "losses carried forward" tax rule has been amended. In particular, the Group may reduce its profits tax base of the current period by the amount of losses carried forward limited to 50% of profits tax base of the current period. This limitation is applicable till year 2021. Such tax law amendment leads to increase of tax payments of the Group.

Since July 18, 2017 the Russian Tax Code contains new article with definition of unjustified tax benefit. Previously unjustified tax benefit concept was introduced only in the Russian court practice. The provisions of this article establish limits for possibility to qualify the transactions of taxpayers as transactions aimed at unjustified decrease of tax obligations. The introduction of this article, inter alia, may protect the Group from unreasonable and unproven claims from the tax authorities.

The introduction of these laws, as well as the interpretation of certain provisions of the Russian tax legislation in combination with the latest trends in law enforcement indicate the potential tax risks due to the fact that the Russian tax authorities and courts could become tougher in the interpretation of tax legislation and assessments of the amount of tax liabilities. At the same time the potential impact could not be estimated, as well as the probability of an unfavorable outcome in the case of claims of the Russian tax authorities.

Management supposes that in 2017 the provisions of the tax legislation were applicable to the Group correctly.

Operating environment – Emerging markets such as Russian Federation are subject to different risks than more developed markets, including economic, political and social, and legal and legislative risks. Laws and regulations affecting businesses in Russian Federation continue to change rapidly, tax and regulatory frameworks are subject to varying interpretations. The future economic direction of Russian Federation is heavily influenced by the fiscal and monetary policies adopted by the government, together with developments in the legal, regulatory, and political environment.

Because Russian Federation produces and exports large volumes of oil and gas, its economy is particularly sensitive to the price of oil and gas on the world market, which decreased significantly during 2015 and showed limited signs of recovery over the course of 2016 and 2017. Management is unable to reliably estimate the effects of any further price fluctuations on the Group's financial position.

Starting from March 2014, sanctions have been imposed in several packages by the U.S. and the E.U. on certain Russian officials, businessmen and companies. In August 2017, US President signed bill on a new set of sanctions. Ratings of Russia's sovereign debt from Moody's and S&P agencies remain at a below investment-grade level following a series of downgrades over 2014-2015.

At the same time, the US Federal Reserve System has accelerated the pace of interest rates hikes which should affect flows of capital to/from emerging economies such as Russian Federation. Global geopolitical landscape remains complicated due to stress around numerous regions, including areas where the Russian forces are involved (such as Syria). These developments may result in reduced access of the Russian businesses to international capital and export markets, capital flight, weakening of the Russian Rouble and other negative economic consequences.

The impact of further political and economic developments in Russian Federation on future operations and financial position of the Group is at this stage difficult to determine.

Share-based payments – The Group engages in cash settled share-based payment transactions in respect of services received from certain employees. The fair value of the services received is measured by reference to the fair value of the shares initially on the date of the grant and then subsequently at each reporting date. The cost of the employee services received in respect of the shares granted is recognized in the interim condensed consolidated statement of profit or loss within administrative expenses, over the period that the services are received, which is the vesting period. A liability equal to the portion of the goods and services received is recognized at the current fair value determined at each balance sheet date for cash settled payments.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

28. Transactions with related parties

Transactions between the Group and its subsidiaries, which are related parties of the Group, have been eliminated on consolidation and are not disclosed in this note. Details of transactions between the Group and other related parties are disclosed below:

For the 9 months ended 30 September 2017 and 2016 total remuneration of the key management amounted to RUB 626 million and RUB 709 million, respectively.

29. Fair value of financial instruments

Estimated fair value disclosures of financial instruments are made in accordance with the requirements of IFRS 13 "Fair Value Measurement". Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (ie an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The fair values of financial assets and financial liabilities are determined as follows.

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

- The fair values of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices (includes listed redeemable notes, bills of exchange, debentures and perpetual notes).
- Unquoted equities and debt securities classified as available-for-sale are valued using models
 that use both observable and unobservable data. The non-observable inputs to the models
 include assumptions regarding the future financial performance of the investee, its risk profile,
 and economic assumptions regarding the industry and geographical jurisdiction in which the
 investee operates.
- For financial assets and liabilities that have a short term maturity (less than 3 months), it is assumed that the carrying amounts approximate to their fair value. This assumption is also applied to demand deposits and savings accounts without a maturity.
- For loans and advances to banks and customers and deposits by banks and customers and promissory notes issued at variable rates management believes that carrying value may be assumed to be fair value.
- For loans and advances to banks and customers and deposits by banks and customers and promissory notes issued at fixed rates fair value has been estimated by reference to the market rates available at the balance sheet date for similar instruments of maturity equal to the remaining fixed period.
- The fair values of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.
- The fair values of derivative instruments are calculated using quoted prices. Where such prices are not available, a discounted cash flow analysis is performed using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives. Foreign currency forward contracts are measured using quoted forward exchange rates and yield curves derived from quoted interest rates matching maturities of the contracts. Interest rate swaps are measured at the present value of future cash flows estimated and discounted based on the applicable yield curves derived from quoted interest rates.

The fair value of financial assets and liabilities compared with the corresponding carrying amount in the interim condensed consolidated statement of financial position of the Group is presented below:

	30 September 2017 (unaudited)		31 D	ecember 2016

NOTES TO THE INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR 9 MONTHS ENDED 30 SEPTEMBER 2017

Assets and liabilities for which fair value approximates carrying value

For financial assets and liabilities that have a short term maturity (less than 3 months), it is assumed that the carrying amounts approximate to their fair value. This assumption is also applied to demand deposits and savings accounts.

Fair value measurements recognised in the interim condensed consolidated statement of financial position

For the purpose of fair value hierarchy disclosure as at 30 September 2017 and 31 December 2016, the Group has categorized classes of assets and liabilities at fair value into Level 1 to 3 based on the degree to which their fair value is observable:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Balance Sheet	30 September 2017, mRUB (unaudited)			31 December 2016, mRUB			
Category	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3	
Financial assets at fair value through profit or loss							
 Derivative financial instruments 	-	30,788	-	_	35,093	_	
- Debt securities	2,410	-	-	2,059	_	_	
Investments available-for-sale	6,143	191	-	8,033	204	_	
Financial liabilities at fair value	2.094	20.019		745	25 227		
through profit or loss	2,081	30,918	-	745	35,237	_	

Possibility of transfer from Level 1 to Level 2 category is assessed as low, as liquidity control is performed by Market Risk Department. Control period of liquidity assessment is 90 days from position opening. Market risk department performs liquidity analysis using position turnover, volumes of exchange trades, availability of exchange and brokers quotations. In case of position assessment as insufficiently liquid the necessary actions to close position are taken.

For financial instruments that are recognized at fair value on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Level 3 fair values of land and office buildings have been generally derived using the adjusted sales comparison approach, the income-based approach and the costs method. Unobservable inputs included in the calculations for sales comparison approach represent various adjustments considered to account for the difference between the compared properties in terms of size, location, bargain prices to which sellers are willing to go (ranging from 0% to -15%). The unobservable inputs included in the income-based approach calculations represent mainly the adjustments considered to account for the discounting rates (ranging from 10% to 12%) and capitalization rates (from 9% to 12.5%).

The sensitivity of the fair value measurement to changes in those unobservable inputs indicated above does not result in a significantly higher or lower fair value measurement.

30. Segment reporting

The Group discloses information to enable users of its financial statements to evaluate the nature and financial effects of the business activities in which it engages and the economic environments in which it operates. This matter is regulated by IFRS 8 "Operating segments" and other standards that require special disclosures in the form of segmental reporting.

IFRS 8 defines an operating segment as follows. An operating segment is a component of an entity:

- That engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);
- Whose operating results are reviewed regularly by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and
- For which discrete financial information is available.

Information reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance focuses on types of services delivered or provided. The Group's reportable segments under IFRS 8 are therefore as follows:

- Retail banking representing private banking services, private customer current accounts, savings, deposits, investment savings products, custody, credit and debit cards, consumer loans and mortgages.
- Corporate banking representing direct debit facilities, current accounts, deposits, overdrafts, loan and other credit facilities, foreign currency and derivative products.
- Treasury and Financial institutions representing all trading financial instruments recognized and measured at fair value through profit and loss as well as loans and borrowings initiated through interbank transactions.

The accounting policies of the operating segments are the same as those described in the summary of significant accounting policies. Transactions between the operating segments consist only of reallocating of funds. Funds are ordinarily reallocated between segments, resulting in funding cost transfers disclosed in operating income. Interest charged for these funds is based on the Group's marginal funding price. There are no other material items of income or expense between the business segments. Segment assets and liabilities comprise operating assets and liabilities. Internal charges and transfer pricing adjustments have been reflected in the performance of each business.

The main business activity of the Group is concentrated in RF, thus no geographical segmentation is reported.
